PROFILE

Full Stack Engineer with 10+ years of software engineering experience, including 5+ years in senior SaaS roles. Specialized in building and scaling multi-tenant SaaS platforms with Laravel, Vue.js, and modern JavaScript. At Tech Transform, lead full-stack development of an enterprise platform serving 15+ business clients—owning architecture, API design, and performance. Proven track record of cutting response times, mentoring engineering teams, and shipping production-grade systems for international, fully remote teams.

EXPERIENCE

Senior Full Stack Engineer – SaaS

Tech Transform Co. · Mar 2020 – Present · Remote – Riyadh, Saudi Arabia

Lead full-stack development of a multi-tenant SaaS platform serving 15–50 enterprise clients, owning architecture, delivery, and technical direction.

- Cut average API response time by ~30% by profiling and resolving critical bottlenecks (query optimization and caching), improving stability under peak load.
- Designed and built RESTful APIs that power third-party integrations and system interoperability across the platform.
- Mentored and reviewed code for a team of 5–10 engineers, enforcing standards that improved long-term maintainability.
- Built responsive Vue.js front-ends, translating product and business requirements into reliable, user-facing features.

Full Stack Engineer (Freelance)

Self-Employed · Jan 2013 – Feb 2020 · Remote

Delivered full-stack SaaS products, dashboards, and custom web platforms for multiple international clients.

- Built scalable back-ends in Laravel & MySQL with clean architecture, and interactive front-ends in Vue.js and React.js.
- Developed and deployed cross-platform mobile apps using React Native and Flutter.
- Integrated payment gateways and third-party services through secure RESTful APIs.

EDUCATION

Master's Degree – Advanced Information Systems

University of M'sila · Sep 2015 – Jun 2017

University of M'sila, Algeria

Bachelor's Degree (Licence) – Information & Communication Science

University of M'sila · Sep 2012 – Jun 2015

University of M'sila, Algeria

SKILLS

Backend: PHP (Laravel), MySQL, REST APIs, SaaS / Multi-Tenant Architecture

Frontend: Vue.js, React.js, JavaScript (ES6+), HTML5, CSS3

Mobile: React Native, Flutter, Dart

Tools & Practices: Git, API Integration, Code Review, Performance Optimization

SELECTED PROJECTS

Nazzim — Event & Conference Platform

A multi-tenant SaaS for running tech conferences and events — registration, agendas, a virtual exhibition, live streaming, and a media center.

Tech: SaaS, Laravel, Vue.js, Tailwind CSS, MySQL

Atrum — Art Marketplace & Auctions

An online marketplace for buying, selling, and auctioning artworks, with galleries, artist profiles, and multi-currency checkout.

Tech: Laravel, Vue.js, MySQL, Stripe, Tailwind CSS

Rayiq — AI Marketing Content Platform

A SaaS platform that turns an idea into a full marketing campaign — ready-to-publish copy and visuals for every channel.

Tech: SaaS, Laravel, Vue.js, OpenAI API, Tailwind CSS

Ihtiwa — Patient Care & Case Management Platform

A care-management platform for a patient-care center: beneficiary records, vital signs, medical appointments, daily follow-up, social sessions, and risk alerts.

Tech: Laravel, Vue.js, Tailwind CSS, MySQL, ApexCharts

Leqa — Webinar & Live Training SaaS

A white-label webinar SaaS for live tech sessions led by experts — registration, search, training tracks, and per-client branding.

Tech: SaaS, Laravel, Vue.js, WebRTC, Tailwind CSS

Sdeem — Nonprofit Sector Learning Platform

A SaaS e-learning platform that qualifies and develops people working in the nonprofit sector through curated courses and career tracks.

Tech: SaaS, Laravel, Vue.js, Tailwind CSS, MySQL

Charity Aid & Beneficiaries Management System

An operations dashboard for a charitable society — beneficiaries, services, warehouses, drivers, and delivery trips, with live analytics.

Tech: Laravel, Livewire, MySQL, Tailwind CSS, ApexCharts
